ABOUT ISIS

Isis Jade is the Energy Alchemist, a comeback queen and a walking medical impossibility. She came back from trafficking, torture, brain damage, a 1998 prognosis that she would never walk again, and homelessness as a single mother of three. Within a year she was in college.

In forty days of silence she channeled the Law of Delight and wrote **Delight**, the book her followers call the bible of the original law. Her teaching surfaced the same sacred truth hidden inside every spiritual tradition and the ancient philosophers.

She moves energy at any scale. Stalled teams returned to passion and collaboration across 50+ companies. Her clients have tripled income and doubled revenue within weeks. Two doctorates and 33 certifications bring science and spiritual source together.

She founded Alchemyst Co, master crafted, bioenergized aromatherapy and emotional healing tools.
